Great Damage by Breaking up of Ice ALBANT, February 13.—The Ice com-menced moving in the river about 31 this morning. The break up was sudden, at-tended by a noise like thunder. Within twenty minutes after the start the water rose 4 feet, and has been rising ever since or 8 feet at 11 o'clock. The destruction of property is large, the ice being blocked below the city. The damage in business is roughly estimated at Sau 000 Boais, propellers, and other crafts were driven up by the force of the ice. A heavy tow-boat and other boats were driven through the first story of the frame freight the whole front being knocked out, and the building, which is very long and two-stories high, is very much damaged. Two machine shops owned by Mr. Punchon were destroyed in a similar manner. The happy effect of the increased com forts of the Asylum, and of the moral means of treatment now at command, is very manifest in the augmenting per cent. tage of recoveries, and a gradual falling off in the bills of mortality. This is evident in the following table, showing the disposition of all the inmates from 1824 to 1850, compared with a similar statement including the last ten years:

In the removals of the last ten years those who were sent to the Western Asylum. when that institution was opened, are ln. cluded.

Of the whole number treated during the last ten years, 24 21 per cent. died: during the last five years only 16 40 per cent. has perished. The last report showed a mor tality for the year of 3.32 per cent. During the past twelve months the mortality has been 3.70 per cent.

Of the number admitted during the past year, the following table will show the duration of insanity prior to admission.

Of those, eleven are reported to have had blood relations insane. Five of them have been heretofore inmates of some hospital.

The person reported as "not insane," was sent there by order of the court, having been acquitted of the crime of murder by reason of insanity. The Superintendent was very soon convinced that he was not insane, but from court. A writ of habeas corpus was sued out, a jury summoned to try the CIVIL CONDITION OF THOSE ADMITTED BURING THE YEAR

For the past year the average age of all admitted was 85.38 years; for the four precious years it was 31 98 years. NATIVITY OF THOSE ADMITTED DURING THE

been admitted during the year; and, indeed, although there have been numerous applications from abroad, no one, not a citizen of

Kentucky, has been received during the last three years. This policy was adopted from necessity. Our wards were rapidly filling up, and it was obvious that it would soon become impracticable to afford suitable accommodations to our own citizens. Patients are conveyed from that part of the State to the Western Asylum at Hopkinsville only at very great cost; and it was thought to be unjust to that institution thus to tax its fands, and burdensome to the Commonwealth to admit foreign patients, and thus, incidentally, entail additional expense in the protection of her own subjects. TIME SPENT BY DECEASED IN THE INSTITUTION

The Superintendent, in response to an inquiry by the Board of Managers as to the danger and source of danger by conflagra. tion, etc., reports that while the buildings are heated by steam, there is still danger from the situation of the kitchen and bakery in the basement, and from the draft that would be afforded fire by the dumb waiters extending to the various floors of sales. the institution. The Superintendent has guarded against this danger as far as practicable, by obtaining hose for attachment to the steam pumps and to fire plugs in pipes leading from the tanks in the attics. But he suggests economical measures to insure greater safety. The report is very interesting, and reflects credit upon the officers of the Asylum.

AN EXCITING SCENE -The recent melancholy death of Joseph L. White, at the hands of an assassin in Central America, calls to mind one of the most exciting scenes perhaps ever witnessed in Indiana. During the contest for Congress in 1843, hetween White and Thomas J. Henley, P. M. Kent, Esq., was editor of the Western Union Democrat in New Albany, says the Ledger. The contest had been one of extraordinary bitterness, in which Mr. Kent took a prominent part against White. The latter had made the canvass of the district, and was to make his closing speech in this city. He announced that in his speech he would pay latter issued a counter-manifesto, stating charge of malicious stabbing, at the May says: question of insanity, and the person dis. his charges against him to his face. Idiopathic Meadache is also very common, being usuall distingui hed by the name of nervous Acadache, som times coming an auddenly in a state of apparently soun by depression of spirita or assettly of temper. In most instances the pall is in the frost of the head, over once into eyes, and sometimes provoking vonsiting under his class may also be ramed. Newrights.

For the treatment of atther class of Headache the laphatic Pills have bean found a sure and safe remedy, slacing the most acute pains in a few minutes, and, y its subject power, enaltering the diseases of which leadache is the unerring indust.

the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Caphalic Pill for rollef of Headache, and the use of Quinine for the prevention of Pevers, either of which is a sure specific, whose benefits will be ex-perienced by anfibring humanity long after their dis-securers are forgotton
